

FIMH

10th Functional Imaging and Modeling of the Heart Symposium
Organized jointly by IHU Liryc and Inria

6 – 8 June 2019

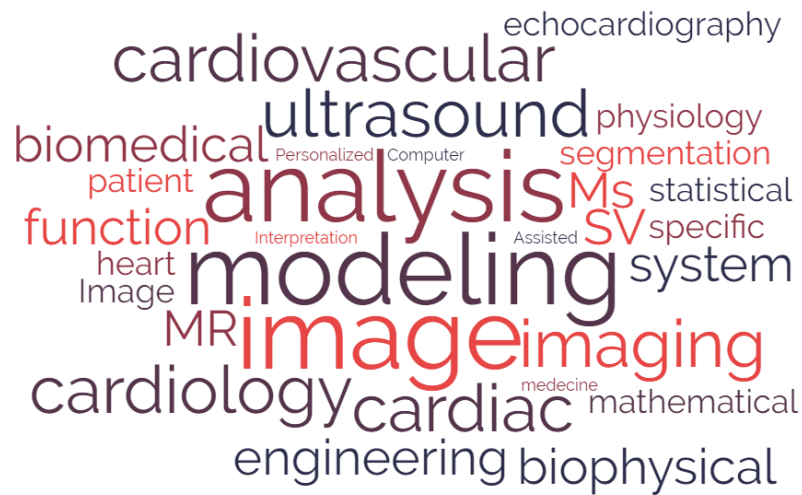

University of Bordeaux - Victoire, France

Sponsorship and Advertising Opportunities

3 days of discussions in a prestigious setting that provides many networking opportunities.

Keywords :

Board of Directors :

- Isabelle E. Magnin, PhD,
Researcher, University of Lyon
- Leon Axel, MD, PhD,
Radiologist, New York University
- Theo Arts, PhD,
Professor at Maastricht University
- Mihaela Pop PhD,
Researcher, University of Toronto
- Alistair Young, PhD,
Professor at University of Auckland

WELCOME TO BORDEAUX !

FIMH 2019 is the 10th international conference on **Functional Imaging and Modeling of the Heart**.

This biennial scientific event aims to integrate the state of the art research and novel development efforts in the fields of **cardiovascular imaging, image analysis and heart modelling**. The main goal is to encourage collaborations among scientists in signal and image processing, imaging, applied mathematics, biophysics, biomedical engineering, and experts in cardiology, radiology, biology and physiology...

« As a clinician and radiologist, I see FIMH 2019 as a unique opportunity to meet experts of multidisciplinary background, and to learn both the state-of-the-art and the most recent innovations in the fields of cardiac imaging, image processing and image-based computational modeling. If you also believe in the potential of image-based strategies to bring patient care to a next level in cardiology, I encourage you (clinician, researcher or industry) to come and join us in the beautiful city of Bordeaux ! »

Hubert Cochet, MD, PhD
Professor of Medicine and Radiology
University of Bordeaux

The Local Organizing Committee of the **10th Functional Imaging and Modeling of the Heart Symposium** invites you to consider the benefits of joining us as a valued sponsor. Several levels of sponsorship involvement are available with the option to tailor or create a package to best match your budget and strategy.

The Symposium will provide the perfect forum for companies actively involved in, and related to, **cardiovascular imaging, image analysis and heart modelling** to promote their products and services.

Ensure your organization stands out at this premier event, which will be attended by a highly sought after audience of industry specialists and key stakeholders. We anticipate there will be approximately **150 delegates in attendance, attracting experts in cardiology, radiology, biology and physiology and technical professionals interested in advanced cardiovascular imaging applications.**

***The Local Organizing Committee,**
Yves Coudière PhD, Valéry Ozenne PhD,
Edward Vigmond PhD, Nejib Zemzemi PhD.*

WHY BECOME PARTNER ?

- Develop your network and **meet your future partners** : the convention brings together most of the leading decision-makers and provides the optimal conditions for their availability.
- Position your company as **forward-looking and innovative**
- Learn about **advances in research**
- Introduce your recent **innovative techniques** to the research community
